01

About Finvert:

At Finvert, we believe that digital payment solutions should be secure, reliable, and easy to use. We offer a range of payment solutions, including credit and debit cards, bank transfers, APMs, and crypto payments. Our goal is to be the best payment solution provider in the industry, and we achieve this by putting customer satisfaction at the forefront of everything we do.

02

Our Services:

We cater to online businesses in mid-risk and high-risk categories. These businesses often have unique payment processing requirements and need a payment solutions provider that understands their needs. At Finvert, we have developed payment solutions that cater to these unique requirements.

Our services include:

- 1. Credit and Debit Card Payments:**
We offer a range of credit and debit card payment solutions that are secure, reliable, and easy to use. Our solutions are designed to cater to online businesses of all sizes, whether you are a startup or an established business.
- 2. Bank Transfers:** We understand that some customers prefer to pay via bank transfers. That's why we offer a range of bank transfer payment solutions that are secure, reliable, and easy to use. Our solutions cater to businesses of all sizes and can be customized to suit your needs.
- 3. APMs: Alternative Payment Methods (APMs)** are becoming increasingly popular, especially among online shoppers. At Finvert, we offer a range of APMs that cater to online businesses of all sizes. Our APMs are secure, reliable, and easy to use.

4. Crypto Payments: Cryptocurrencies are gaining popularity as a payment method, and at Finvert, we offer a range of crypto payment solutions. Our solutions are secure, reliable, and easy to use, and cater to online businesses of all sizes.

03

*Our
Technology:*

At Finvert, we take security seriously. We have implemented world-class anti-fraud technology to ensure that our payment solutions are secure and reliable. We support high-end technologies like intelligent MID routing and MID cascading to ensure that our solutions are easy to use and reliable.

Intelligent MID routing allows us to route transactions to the most appropriate payment gateway based on a range of factors such as the transaction amount, the currency, and the payment method. This ensures that transactions are processed quickly and efficiently.

MID cascading allows us to seamlessly switch between different payment gateways if one is down or experiencing technical difficulties. This ensures that transactions are processed without any interruption, minimizing the risk of lost sales.

Finvert is a modern digital payment solutions provider that caters to online businesses falling in mid-risk and high-risk categories. We offer a range of payment solutions, including credit and debit cards, bank transfers, APMs, and crypto payments. Our goal is to be the best payment solution provider in the industry, and we achieve this by putting customer satisfaction at the forefront of everything we do.

04

Here are 5 ways in which a Finvert merchant account supports payment processing for high-risk businesses:

Risk Management: Finvert provides specialized risk management tools and services to help high-risk businesses manage and mitigate the risk of chargebacks, fraud, and other types of financial risk.

Compliance Support: Finvert has extensive experience in managing the compliance requirements associated with high-risk businesses, including underwriting and ongoing monitoring. Finvert provides support and guidance to help high-risk merchants meet these requirements.

Chargeback Protection: Finvert offers chargeback protection services to help high-risk merchants avoid costly chargebacks and related fees. Finvert's chargeback protection services include dispute resolution, fraud detection, and prevention tools.

Specialized Expertise: Finvert has extensive experience in managing payment processing for high-risk merchants across a range of industries. This expertise allows Finvert to offer specialized support and guidance tailored to the unique needs of high-risk businesses.

Flexible Payment Options: Finvert supports a wide range of payment options, including credit cards, e-checks, and ACH payments. This flexibility allows high-risk merchants to offer convenient payment options to their customers while managing the associated financial risk.

05

Here are 5 reasons why Finvert merchant account is better than other merchant account providers and PSPs:

Risk Management: Finvert provides specialized risk management tools and services to help high-risk businesses manage and mitigate the risk of chargebacks, fraud, and other types of financial risk. This includes chargeback protection services, fraud detection and prevention tools, and dispute resolution support.

Specialized Expertise: Finvert specializes in providing merchant account solutions for high-risk businesses across a range of industries. This specialized expertise allows Finvert to offer customized solutions and support that are tailored to the unique needs of high-risk merchants.

Flexible Payment Options: Finvert offers a wide range of payment options, including credit cards, e-checks, and ACH payments. This flexibility allows high-risk merchants to offer convenient payment options to their customers while managing the associated financial risk.

Competitive Rates and Fees: Finvert offers competitive rates and fees for high-risk merchant accounts. Finvert's fees are transparent and easy to understand, with no hidden charges or surprises.

Customer Support: Finvert offers dedicated customer support to high-risk merchants, with a team of experienced professionals available to provide support and guidance whenever needed. Finvert's customer support team is available 24/7, ensuring that high-risk merchants always have access to the support they need.

06

Here are 5 ways in which Finvert is handling the risk associated with high-risk merchant accounts:

Risk Assessment: Finvert conducts thorough risk assessments for each high-risk merchant account to identify potential risks and vulnerabilities. This helps Finvert develop customized risk management solutions tailored to each merchant's unique needs.

Fraud Detection and Prevention: Finvert uses advanced fraud detection and prevention tools to monitor transactions in real-time and identify suspicious activity. This includes AI-based fraud detection algorithms, manual review processes, and chargeback protection services.

Chargeback Management: Finvert offers chargeback management solutions to help high-risk merchants avoid costly chargebacks and related fees. This includes dispute resolution support, fraud detection and prevention tools, and chargeback protection services.

Compliance Support: Finvert provides ongoing compliance support to high-risk merchants to help them meet the regulatory requirements associated with processing payments for high-risk businesses. This includes underwriting support, KYC and AML compliance checks, and ongoing monitoring.

Customized Risk Management Solutions: Finvert offers customized risk management solutions tailored to the unique needs of each high-risk merchant. This includes a range of risk management tools and services, such as fraud detection and prevention tools, chargeback protection services, and customized underwriting and monitoring. Finvert's solutions are designed to help high-risk merchants minimize their exposure to financial risk while maximizing their revenue potential.
